Christopher has accepted the “everyday miracle” of angels and has learned how to make that experience real for anyone who wishes to join in his beautiful meditations.

Christopher’s gentle way of working with clients engenders trust. His high level intuitive abilities allow him to then focus on core issues which clients may not have been aware of. His connections with the spiritual realms, particularly the angelic beings, allow him to channel through the healing energy that is needed in the moment. Put all this together, and you have a teacher and healer extraordinaire.

Through My Angel experience with Chris, I am transformed. I went in with half a heart, if that. I gave my heart over to the possession of the angels for healing and it was as if I was at home for the 1st time. Now I feel as if I am operating as a full being.

There's no doubt that my time with Chris was well worth it; the insights I was given through him touched me deeply. It was an intensely emotional, physical and spiritual healing experience for me. Will my life change? I don't know, but I do know that I have some insight into myself that I didn't have and a new curiosity about the angels, all of whom I wish to know better.

The thing that stays with me even now, is the feeling of being enfolded in Angels' Wings and being surrounded with unconditional love. When I'm going to sleep or I'm waking up in the middle of the night, I come back to that place and it is lovely. Thank you so much! Chris is such a gentle presence.

My session with the Angels that Christopher Dilts facilitated was profound. The tangible effects are with Me every day. One of the innermost hidden secrets in my life was a fear of being alone - not really belonging. Today, as I was walking on one of My favorite paths, "alone", I could literally feel the caress of the Angels hovering and dancing all around Me. The gift of the Angels to Me is that alone is an illusion.

My on-going spiritual work with Chris has lead to a tangible experience of the Angels, and especially the presence of Metatron. I have experienced a personal breakthrough and I am further set free from lifelong habitual thinking that "What I have perceived, is all there is." I accept on an expanded level of consciousness a personal experience of the Angels, and now am practicing, in my everyday life, what my heart knows is true.

I experienced a deep loving kindness and childlike joy within and around me. Many thanks to Chris for safely and simply facilitating a delightful angel experience. He helped lead me into a wonderful connection with my Guardian Angel. Even now, I am filled with Her divine presence. Within every breath, the opportunity is there. She is truly a gift of heaven for me.

The Angel session that I experienced with Chris brought me to a blissful state of being. Learning how to get the feeling of being & holding that feeling brought me tremendous joy! Chris helped me to find the flower within & it took me no time at all to blossom & reach for the sun.

I left my note pad at the door. This was truly experiential. Chris facilitated a beautiful attunement with my Guardian Angel. I felt tingles - especially in my arms & in the soles of my feet that felt like a warm blanket of comfort & familiarity to my true essence. I had a tangible sense of home. We worked on grounding this feeling, in a sensorial way, into the pillar of who I am. It was a delicious confirmation of my connection to the Divine. I now have a vibrational tool to vector my way into my Soul.
